

# ELECTRIFIED DOUBLE TRACK GEMAS – JOHOR BAHRU

## **BACKGROUND**

The government has agreed to upgrade 197km single track from Gemas to Johor Baharu in 2000. The plan includes determining the range and scope of work. EDTP GJB is a continuation from Singapore - Kunming Rail Link.

## **PROJECT SCOPE**

The project scope includes 195km of electrified double track, stations, electric trains depots, Land Viaduct, bridges, electrification and signaling systems.

## **PROJECT PROPOSAL**

The construction of this project is expected to begin in 2016 and the total construction period is 4 years

## **PROJECT OUTCOME**

It will save traveling time from Johor to KL from 6 to 3.5.
